COMPANY

公司简介 | Company Profile

Anping Huanhua Wire Mesh Products Co., Ltd. is located in Anping, Hebei, known as the "Hometown of Wire Mesh in China". It is a professional manufacturer specializing in the research, development, production, and installation of sports facilities such as paddle tennis courts. With years of deep industry experience, the company leverages the local complete industrial chain advantages and relies on mature production processes and a comprehensive quality control system to provide professional venue protection solutions for various customers. Its products cover a wide range of application scenarios, including commercial venues, campus parks, and sports communities.

The company boasts standardized production workshops and complete sets of automated production equipment, with its own electrostatic spraying production line. It rigorously controls the entire process, from raw material screening to finished product delivery. Adhering to quality as its core, the company continuously refines its production processes, adapting to the customized needs of various customers. It is committed to creating high-quality venue facilities that are durable and have a clean appearance.

The company always adheres to the business philosophy of "integrity-based, win-win cooperation", based in Hebei and radiating across the country, continuously providing engineering partners, venue operators, and end customers with cost-effective products and thoughtful supporting services. Friends from all walks of life are welcome to visit the site, negotiate cooperation, and seek common development.
